

Project Engineer - Civil

Engineering Concepts, Incorporated is seeking an experienced Project Engineer for Civil Engineering projects in our Fincastle, VA office. Engineering Concepts, Inc. is an equal opportunity employer that specializes in Civil Engineering, including services ranging from environmental engineering to land development, surveying, water and utility resources and assistance with economic development.

Duties and Responsibilities:

The following duties are typical of the position but are not all-encompassing.

1. Prepare engineering documents, details, schedules and reports as assigned for land development and utility projects.
2. Thorough knowledge and application of AutoCad Civil 3d.
3. Construction inspection.
4. Thorough knowledge and application of grading, storm water, road and utility design.
5. Provide support to the project team in all aspects of engineering production.
6. Responsible for efficient, accurate, and complete information documentation.
7. Maintain neat and organized work area, which allows efficient access to project information required by other team members.
8. Other duties as assigned.

Qualified applicants are expected to help out in whatever duties are required to deliver a quality product on schedule.

Education/Experience:

- A four year degree in Civil Engineering or a related field
- Solid written and oral communication skills.
- 2-5 years of progressive experience as a Project Engineer.
